2025

- Completed 4-week training focused on Agentic AI and intelligent automation systems.

AI-ML Virtual Intern, AICTE – Eduskills

2025

- Implemented machine learning pipelines including data preprocessing and model training using Python.

PROJECTS

AI Resume Analyzer (RAG, Python) Developed a Retrieval-Augmented Generation (RAG) system to analyze resumes and generate company-specific improvement suggestions using intelligent text analysis.

Greener Cities – Tree Planting Prediction (Python, ML, Scikit-learn) Built a machine learning model to predict optimal tree type, planting distance, and number of trees using environmental and pollution data for sustainable urban planning.

StudyNow – Learning Platform (React, Computer vision, JavaScript) Developed a student productivity platform with timetable planning, task tracking, progress analytics, and an integrated motivational chatbot.

Plant Store – E-commerce Website (HTML, CSS, JavaScript) Developed a responsive multi-page e-commerce website for purchasing plants and gardening accessories with product listings and shopping cart functionality.

CERTIFICATIONS

- Foundations of R Software – NPTEL IIT Kanpur (Gold Medal)
- Introduction to Machine Learning, Programming in Java – NPTEL IIT Madras, IIT Kharagpur
- AI Primer – Infosys
- Data Structures and Algorithms – SmartInterviews (Gold Certified)

ACHIEVEMENTS

- 2nd Prize – Entrepreneur Walk and Talk Competition
- Top 50 – Smart India Hackathon (Campus Level)
- Gold Medal – Mathematics Olympiad
