EDUCATION

B.Tech – Computer Science and Engineering (AI & ML)	2023 – 2027
Prasad V. Potluri Siddhartha Institute of Technology, Vijayawada	
CGPA: 8.9 / 10, SGPA: 9.4/10	
Board of Intermediate Education (MPC)	2023
Sri Sarada Educational Institutions	
Percentage: 95%	
Board of Secondary Education (SSC)	2021
Ravindra Bharathi Public School	
Percentage: 99%	

SKILLS

Languages	Python, Java, C, SQL, JavaScript
Core CS	Data Structures, OOPS, DBMS, Operating Systems, Computer Networks
AI / ML	Machine Learning, Artificial Intelligence, Data Science, Generative AI
Libraries	TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib
Web	HTML, CSS, JavaScript, React
Tools	Git, GitHub, VS Code, Google Colab, Jupyter Notebook
SoftSkills	Leadership, Writing, Public Speaking, Time Management

EXPERIENCE

Vinternship Intern – IIT Ropar (NPTEL)	Feb 2026 – Present
Currently learning the MERN stack (MongoDB, Express.js, React.js, Node.js) and developing full-stack web application components.	
Trainee – Agentic AI Program, CSRBOX – IBM SkillBuild	2025
Completed 4-week training focused on Agentic AI and intelligent automation systems.	
AI-ML Virtual Intern, AICTE – Eduskills	2025
Implemented machine learning pipelines including data preprocessing and model training using Python.	

PROJECTS

AI Resume Analyzer (RAG-Based) — Python, LLMs, NLP Developed a Retrieval-Augmented Generation (RAG) system that analyzes resumes and generates company-specific improvement suggestions using contextual job information, demonstrating a real-world Generative AI application in recruitment systems.

Greener Cities with AI (Python, Machine Learning) Built an AI model to predict optimal tree type, planting distance, and number of trees using environmental data such as pollution levels, population density, and traffic data to support data-driven urban sustainability planning.

Loan Approval Prediction (Python, Scikit-Learn) Implemented a machine learning classification model to predict loan approval status using applicant financial data, helping automate and improve loan evaluation decisions.

StudyNow – Student Productivity Platform (Full Stack Web Development, Computer Vision) Developed a responsive full-stack study management platform featuring timetable scheduling, to-do lists, focus tracking, progress analytics, and a motivational chatbot to enhance student productivity and organization.

AI Vacation Planner (Python, LLMs) Designed an LLM-based travel assistant that generates personalized travel itineraries including destinations, schedules, and recommendations based on user preferences.

CareerBot – Career Guidance Chatbot (Python, Streamlit, NLP) Built an interactive chatbot that recommends suitable career paths based on students' interests and academic background using natural language processing techniques.

Plant Store – E-Commerce Website (HTML, CSS, JavaScript) Created a multi-page e-commerce website for plants, seeds, and gardening accessories with product listings, cart functionality, and order management.

CERTIFICATIONS

- Foundations of R Software – NPTEL IIT Kanpur (Gold Medal)
- Introduction to Machine Learning- NPTEL IIT Madras,
- Programming in Java– IIT Kharagpur
- AI Primer – Infosys
- Data Structures and Algorithms – SmartInterviews(Gold Certified)
- Geo processing using python and Machine Learning-ISRO

ACHIEVEMENTS

- 2nd Prize – Entrepreneur Walk and Talk Competition
- Top 50 – Smart India Hackathon (Campus Level)
- Gold Medal – Mathematics Olympiad
